

MOHAMMAD ISMAIL MUDDASSIR

Kalaburagi (Gulbarga), Karnataka • mdismail4ces@gmail.com • +91 9113679532

PROFESSIONAL SUMMARY

Results-oriented entry-level Java Backend Developer with hands-on experience gained through internships in software development and AI/ML domains. Proficient in Java, Spring Boot, MySQL, and RESTful API development. Demonstrated ability to build end-to-end projects, including an AI-powered resume analyzer. Eager to contribute to backend systems at scale while continuously growing in cloud technologies, DevOps practices, and modern software architecture.

PROFESSIONAL EXPERIENCE

AI / ML Intern | Five Seven IT Solutions

March 2026 – Present

Kalaburagi, Karnataka

- Developing and testing machine learning models for real-world business use cases using Python and popular ML frameworks.
- Assisting in data preprocessing and feature engineering pipelines to prepare structured datasets for model training.
- Collaborating with senior engineers to integrate AI model outputs into existing software systems via REST APIs.
- Documenting model performance metrics and presenting findings to the team to support data-driven decision-making.

Software Development Intern | Kodnest Technologies

January 2025 – March 2025

Bengaluru, Karnataka

- Built and tested Java-based backend modules, gaining hands-on experience with object-oriented design principles.
- Designed and queried relational databases using MySQL, writing optimized SQL queries for data retrieval and manipulation.
- Participated in frontend development tasks using HTML, CSS, and basic React components, gaining exposure to full-stack workflows.
- Conducted manual testing of application features, identifying bugs and logging defects to improve overall software quality.

PROJECTS

AI Resume Analyzer — Personal Project

- Designed and built an AI-powered tool that analyzes resumes against job descriptions using Natural Language Processing (NLP) to generate an ATS compatibility score.
- Implemented text parsing and keyword extraction to identify skill gaps between a candidate's resume and the target job posting.
- Developed a clean web interface to display tailored, actionable feedback, helping users improve their resume's relevance in applicant tracking systems.
- Integrated machine learning classification logic to score resume sections (skills, experience, education) against weighted criteria.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science

Graduating 2026

CGPA: 8.44 | Karnataka, India

12th Grade (PUC) — Al Sharq IND PU College, Kotanur, Kalaburagi

2022

Score: 80%

10th Grade — Faraan English Medium High School

2020

Score: 82.1%

TECHNICAL SKILLS

Languages: Java, Python, SQL

Backend: Spring Boot, REST APIs, Node.js

Frontend: React, HTML, CSS, Web Components

Database: MySQL, Relational Database Design

DevOps & Cloud: Git, GitHub, Docker, Linux, AWS (EC2, S3 — Fundamentals)

Testing & QA: Manual Testing, Bug Reporting, Troubleshooting

LANGUAGES

English (Fluent) Hindi (Fluent)
